

The classic among the single units with fan high pressure technology and without brushes, dirt Blaster and other unsuitable moving parts for wet rooms - timeless in design, perfect in function and durable for ever - for washing of up to two fire pressure hoses of sizes 75mm, 45mm and 25mm or one hose of 110mm or 150mm.

The mobile hose-washing machine by PREY - short SWM - with high pressure technology is the most economical and most robust of its kind, the pressure lines are equipped with virtually maintenance-free fan nozzles. Accordingly, the housing has no moving parts in the wet chamber.

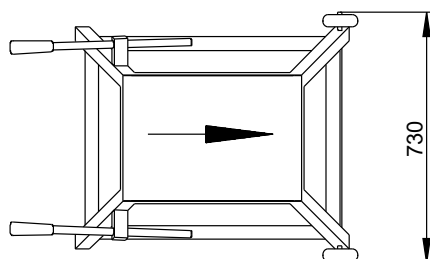

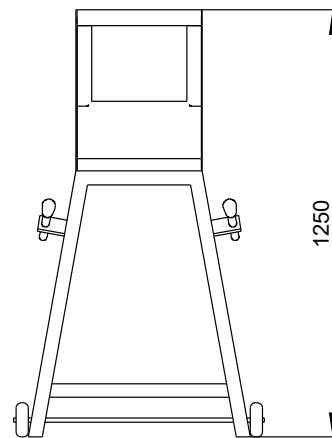

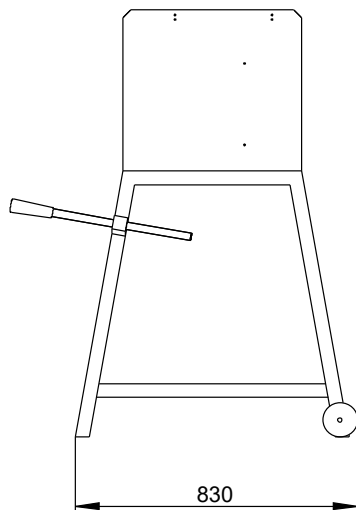

Frame and housing are made of high quality, durable stainless steel (alloy 1431) produced in-house in precise processing quality - for unmatched durability and optimum protection against corrosion even with a use of foam concentrates. The housing is additionally powder coated.

The SWM comes from our proven system technology and hold to the highest loads, is mobile, can therefore be used anywhere and if required in terms of any individual site requirements can be combined with any other single unit.

Technical specifications:

Order number:	1-004-040201
Indication:	Fire Hose Washing Mashine
Type:	SWM
Measurement:	730 x 830 x 1250mm (WxLxH)
Weight:	105 kg
Water connection:	¾"
Testing connection:	400V AC / 50Hz / 5,5kW / 16A
wash pressure:	0 - 100 bar
Capacity	
- hose size:	1 110mm / 2 75mm / 2 45mm / 2 25mm
- hose length:	unrestricted
- hose material:	all known material
Functions:	washing

Operating Mode:	one man operation
Washing mashine:	self-retaining mode
Type of installation:	mobile
Combination with:	all other hose maintenance single units
	Revolving Fire Hose Dryer
	all Fire Hose Hanging Systems
Standard equipment:	hose carrying fork
	hose break (self opening)
	cable holder
	heavy duty roller
	fixing break
optional equipment:	high-pressure-spray lance

Technische Details

Netzwasseranschluss:	3/4"	Stromanschluss:	AC / 400 V / 16 A / 50 Hz
Gewicht:	105 kg	Leistung der Leitung:	5,5 kW
